

### Purpose

This procedure guides student use of digital devices and online services at our school. Our school acknowledges the educational value of digital devices and online services in supporting and enhancing educational outcomes and student wellbeing. We also recognise they may cause harm if used inappropriately and that we need to support our students to use them in safe, responsible and respectful ways.

### Scope

This procedure provides a consistent framework for the safe, responsible and respectful use of digital devices and online services by students in our school. It sets out the shared responsibilities of school staff, students and parents and carers. It also provides a framework to manage potential risks to student safety and wellbeing. This procedure covers student use of digital devices and online services in school-related settings, including on school grounds, at school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This procedure covers the use of school-provided and personal digital devices and all online services.

### Our School's Approach

Tempe High School's approach is to use BYOD devices to support teaching and learning. As of 2020 it is mandatory for Tempe High School students in Years 7 to 12 to bring a computing device to school. Students, Parents and Care givers are to read and sign a student agreement that outlines the school expectations around appropriate, and inappropriate, use of technology. In signing, students acknowledge the school's expectations and accept the identified consequences for any breaches of the student agreement.

### Exemptions

An exemption from parts of this policy or the school procedure can be requested from the principal by parents, carers, school counsellors and other student support staff, and, if required, students themselves. This may cover times when or places where use would otherwise be restricted. Except where required by law, the school principal has discretion to consider and approve exemptions and to choose which parts of the school procedure the exemptions applies. The exemption may be ongoing or for a certain time period.

### Consequences for inappropriate use

- The student is given a warning from a teacher or other staff member.
- Teacher can revoke BYOD in-class privilege by manner of device being placed away in students bag.
- The student's digital device is confiscated by a staff member.
- Confiscated devices are returned at the end of class.
- The student's access to the school network is restricted through the EMU tool on the DoE portal.
- The teacher or principal arranges a meeting with the student's parent or carer.
- Suspension and possible Police and/or Child Wellbeing involvement for serious incidents.

## Contact between students and parents and carers during the school day

Should a student need to contact a parent or carer during the school day, they must approach the administration office and ask for permission to use the school's phone. During school hours, parents and carers are expected to only contact their children via the school office.

## Responsibilities and obligations

### For students

- Be safe, responsible and respectful users of digital devices and online services, and support their peers to be the same.
- Students must use their device in accordance with the Department of Education and Communities' policy Online Communication Services: Acceptable Use for Students (PD-2020-0471-V01) and the BYOD User Charter.
- Sign and adhere to the Tempe High School Digital Device Charter.
- Respect and follow school rules and procedures and the decisions made by staff.
- Communicate respectfully and collaboratively with peers, school staff and the school community and behave in the ways described in the Behaviour Code for Students.
- BYOD's to be brought to school daily.
- Year 7 students will undertake a Digital Citizenship course in Term 1 coinciding with mandatory BYOD.
- The device must meet the device specifications as outlined in this document. A device that does not meet the specifications will not be permitted to access the school's networks and servers.
- The device is to be used only by the owner of that device while at school.
- Each student is absolutely and solely responsible for the care and conduct of their own personal device whilst at school or at other school activities or travelling to and from school or to and from other school activities.
- Students must connect their device to the designated wireless data network supplied by Tempe High School using their own, individual user account credentials only. Students must not connect to any other network, wired, wireless or cellular.
- Where reasonable grounds exist to suspect that a device contains data which breaches the BYOD student agreement, the school may confiscate the device for the purpose of confirming the existence of the material. Depending on the nature of the breach of the BYOD user agreement further disciplinary action may be taken including but not restricted to banning access to the school's wireless connection
- The use of the device in the classroom is at the sole discretion of the teacher.
- Should a student's device fail to meet a requirement of the Device Specification, the school will not facilitate the student's access to any network or school services. The school may direct a student to cease bringing a device to school which does not meet all the requirements of the Device Specification.
- Tempe High School will accept no responsibility for loss or damage to, or for maintenance or repair required on a student's own device through any act or omission resulting from the negligence or otherwise of the school, a member of the school staff or of another student.
- BYOD serial number must be provided to the school to assist the repatriation process.
- BYOD's to be charged to enable usage for the entire school day, additionally a charger can be brought to school
- In the event a device has been left at home, student must borrow a short term loan device from the library at the start of the school day (returned at the end of the school day).
- In the event of a damaged personal device, student must make contact with the school's CAT. Arrangements can be made regarding usage of a temporary SOD until the repair of personal device.

### For parents and carers

- Acknowledge the responsibilities students must adhere to in signing the BYOD Digital Device Charter.
- Acknowledge that their child is absolutely and solely responsible for the care and conduct of their

own personal device whilst at school or at other school activities or travelling to and from school or to and from other school activities.

- Recognise the role they play in educating their children and modelling the behaviours that underpin the safe, responsible and respectful use of digital devices and online services.
- Support implementation of the school procedure, including its approach to resolving issues.
- Take responsibility for their child's use of digital devices and online services at home such as use of online services with age and content restrictions.
- Communicate with school staff and the school community respectfully and collaboratively as outlined in the 2018 School Community Charter (<https://education.nsw.gov.au/public-schools/going-to-a-public-school/school-community-charter>).
- In the event of financial hardship, engage in dialogue with school (Deputy Principal, Year Advisor, CAT). Participate and engage in BYOD equity process to enable provision of SOD.
- Provide digital devices that meet school specifications where a school is participating in a bring your own device program and complete any related paperwork.

### **For the principal and teachers**

- Deliver learning experiences that encourage safe, responsible and respectful use of digital devices and online services. This includes: establishing agreed classroom expectations for using digital devices and online services, in line with this procedure and departmental policy; identifying strategies to ensure that all students are able to engage in classroom activities including strategies to accommodate students without a digital device; reading and abiding by the Terms of Service for any online services they use in teaching, including those limiting use by age; and educating students about online privacy, intellectual property, copyright, digital literacy and other online safety related issues.
- Model appropriate use of digital devices and online services in line with departmental policy.
- Respond to and report any breaches and incidents of inappropriate use of digital devices and online services as required by school procedures, departmental policy and any statutory and regulatory requirements. This includes: reporting the creation, possession or distribution of indecent or offensive material to the Incident Support and Report hotline as required by the Incident Notification and Response Policy and Procedures and consider any mandatory reporting requirements; working with the department and the Office of the e-Safety Commissioner (if necessary) to resolve cases of serious online bullying and image-based abuse; and following the school's behaviour management plan when responding to any incident of inappropriate student behaviour relating to the use of digital devices or online services.
- If feasible and particularly as issues emerge, support parents and carers to understand strategies that promote their children's safe, responsible and respectful use of digital devices and online services.
- Participate in professional development related to appropriate use of digital devices and online services.

### **For non-teaching staff, volunteers and contractors**

- Be aware of the department's policy, this procedure and act in line with the conduct described.
- Report any inappropriate use of digital devices and online services to the principal, school executive or school staff they are working with.

## **Communicating this procedure to the school community**

Students:

- This procedure can be accessed electronically via the Tempe High School website and through the Tempe High School Sentral Student & Parent Portal.
- Student preferences will be explored via a Student Representative Council meeting.

Parents and carers:

- This procedure can be accessed electronically via the school's website and through the Sentral Student & Parent Portal.
- Parent and carer preferences will be explored via a parent information evening or P&C meeting.
- Parents and carers will be advised via the school newsletter.

### **Complaints**

If a student, parent or carer has a complaint under this procedure, they should first follow our school's complaints process. If the issue cannot be resolved, please refer to the Department's guide for making a complaint about our schools (<https://education.nsw.gov.au/about-us/rights-and-accountability/complaints-compliments-and-suggestions>).

### **Review**

The principal or delegated staff will review this procedure annually.

## Appendix 1: Key terms

- Bring your own device is a program where parents and carers provide personal digital devices for use at school. Any decision to adopt a bring your own device program is made by the Principal in consultation with a school community. All digital devices used in schools are covered by the Student Use of Digital Devices and Online Services policy. Schools retain discretion to determine the specifications of personal devices to be used at school.
- Digital citizenship refers to the skills and knowledge a person needs to effectively use digital technologies in a positive way so they can participate in society, communicate with others, and create and consume digital content.
- Digital devices are electronic devices that can receive, store, process and share digital information and connect to applications (apps), websites and other online services. They include desktop computers, laptops, tablets, smartwatches, smartphones and other devices.
- Digital literacy is the set of social, emotional and technological skills and competencies that people need to understand to use digital devices and online services, and to expand their opportunities for education, employment and social participation, including entertainment.
- Educational purpose is any use approved by school staff that supports student learning, wellbeing and educational outcomes.
- General capabilities are the broad collection of knowledge, skills, behaviours and dispositions described within the Australian curriculum and NSW syllabus.
- Image-based abuse occurs when intimate, nude or sexual images are distributed, or threatened to be distributed, without the consent of those pictured. This includes real, altered and drawn pictures and videos. This is a crime in NSW.
- Online bullying involves using technology such as the internet or mobile devices to bully someone. Bullying behaviour has three key features. It involves the intentional misuse of power in a relationship. It is ongoing and repeated, and it involves behaviours that can cause harm. Bullying behaviour can also involve intimidation, victimisation and harassment, including that based on sex, race, religion, disability, or sexual orientation.
- Online safety is the safe, responsible and respectful use of digital media, devices, other technology and online services.
- Online services are any software, website or application that can gather, process or communicate information. This includes digital classrooms, chat and messaging, online games, virtual reality, social media and other online spaces.
- Reasonable adjustment is a measure or action taken to assist a student with disability to participate in education and training on the same basis as other students.
- School-related settings include school grounds, school-related activities and outside of school where there is a clear and close connection between the school and the conduct of students. This connection may exist in situations where: there is discussion about school taking place outside of school hours; a student is wearing their school uniform but is not on school premises; a relationship between parties commenced at school; students are online in digital classrooms; and where online contact has flow on consequences at school and duty of care requires the school to respond once an incident is reported.
- School staff refers to school personnel who have some level of responsibility for implementing policy and the school digital devices and online service procedure. This includes principals, senior staff, teachers, non-teaching staff, school administrative staff, volunteers and contracted staff engaged by schools.

## Appendix 2: What is safe, responsible and respectful student behaviour?

### Be SAFE

- Protect your personal information, including your name, address, school, email address, telephone number, pictures of you and other personal details.
- Only use your own usernames and passwords, and never share them with others.
- Let a teacher or other responsible adult know immediately if you find anything online that is suspicious, harmful, inappropriate or makes you uncomfortable.
- Never hack, disable or bypass any hardware or software security, including any virus protection, spam and filter settings.

### Be RESPONSIBLE

- Follow all school rules and instructions from school staff, including when using digital devices and online services.
- Take care with the digital devices you use: make sure the devices you bring to school are fully charged each day and are stored appropriately when not in use; understand that you and your parents and carers are responsible for any repairs or IT support your personal devices might need; make sure the devices you bring to school have the latest software installed and take care with the school-owned devices you share with others, so that other people can use them after you.
- Use online services in responsible and age-appropriate ways: only use online services in the ways agreed to with your teacher; only access appropriate content and websites, including when using the school's filtered network and personal, unfiltered networks; and do not use online services to buy or sell things online, to gamble or to do anything that breaks the law.
- Understand that everything done on the school's network is monitored and can be used in investigations, court proceedings or for other legal reasons.

### Be RESPECTFUL

- Respect and protect the privacy, safety and wellbeing of others.
- Do not share anyone else's personal information.
- Do not harass or bully other students, school staff or anyone, this includes cyberbullying using a digital device or online service.
- Do not send or share messages or content that could cause harm, including things that might be: inappropriate, offensive or abusive; upsetting or embarrassing to another person or group; considered bullying; private or confidential; and/or a virus or other harmful software.

### Appendix 3: Specifications required for bring your own devices

**Wireless connectivity:**

- Device needs to connect to the 5GHz 802.11n. Device Must have Dual band Wifi.

**Operating system:**

Min. Screen size 7" or 17.8cm

**Software and apps:**

Up-to-date Antivirus (for example Windows Defender)

**Battery life:**

6 hours

**Storage and RAM:**

4GB

**Accessories and other considerations:**

- Identifiable labelling
- Durable cover.
- Tablet devices must have an accompanied keyboard attachment.
